

Dogs

Dogs are often called ‘man’s best friends’. They are known (1) their abilities to fit (2) human households and social situations. There are hundred breeds of dogs (3) different sizes and colours. Common breeds include Chihuahua, Irish Wolfhound, Dalmatians, Golden Retriever, Sheepdogs, Bulldogs and Terriers.

Nothing is more pleasurable (4) dogs than spending time with and interacting (5) other dogs. Roughhousing and chasing one another are their favourite activities. When they are quiet, dogs especially love lying (6) with their companions.

Apart (7) being pets and companions, dogs are also human’s working partners. What kind (8) jobs can dogs do? To name a few, there are watchdogs to watch (9) properties; guide dogs to lead the blind; therapy dogs to provide joy and entertainment (10) hospitals; hunting dogs to assist hunters and police dogs (11) identify criminals.

(12) dogs have sensory or strength advantages (13) humans, it is common (14) find detection dogs (15) the airport looking (16) illegal substances or plastic explosives in luggage, and herding dogs to run (17) flocks of sheep in farms. (18) Italy, well-trained dogs even carry flotation devices and become rescue swimmers.

Dogs have even been to the outer space! The first dog traveled (19) space is called Laika. It is a female dog and it was sent to space (20) 1957.
